

Using images

Free resources (some require attribution) for getting images and creating images:

- a. <https://commons.wikimedia.org>
- b. <http://www.flickr.com/creativecommons/>
- c. <http://lostandtaken.com> – free textures
– great for backgrounds
- d. <http://pexels.com>
- e. <http://pixabay.com/> – free images;
choose the smaller sizes of the free
images (the first items shown are from
a pay-for stock company)
- f. <http://stockvault.net>
- g. <https://unsplash.com>

Adding your header to Blackboard

1. Sign in to classes.alaska.edu
2. Select your class
3. Navigate to COURSE MANAGEMENT: Control Panel > Customization > Teaching Style in the left-hand navigation
4. “SELECT BANNER” is the last item on the Teaching Style page
 - a. Click “Browse My Computer”
 - b. Please add the Alt Text
 - c. Click “Submit” to finish

Adding your header to WordPress

1. Sign into your WordPress site at <https://yourname.community.uaf.edu/wp-admin>
2. Navigate to Appearance in the left-hand navigation
 - a. Try going straight to “Header” by selecting it from the Appearance submenu
3. Pay attention to the recommended header size (listed at the top)
4. Choose “Add new image” then select “Upload Files”
 - a. Choose “Select Files” to see the images on your own computer
 - b. Find your banner file, click “Open” then “Select and Crop” or skip cropping image
 - c. Add your alt text and then remember “Save and Publish” at the top of the customization menu (left-hand side.)

Get assistance with these and other tasks. Talk over pedagogical approaches to student engagement, alignment within your course, helping students uncover domain knowledge, and various ways to scaffold assessments. [Calendar is on left of this page](#). You can add items to your Google calendar.
